

# Class Implementation

## Program Background

**Stand-alone:** Program is designed as stand-alone—no teacher subject matter expertise, no lesson plans, no curriculum (program does it all)

**Comprehensive:** Extremely rich and deep content that teaches actual core curriculum

- All HS math, functional grammar, and punctuation, reading comprehension, analysis, logic, and reasoning)
- Test specific tips and general test taking approaches
- But focuses on real educational content
- 250+ hours of expert videos
- 10,000+ pieces of learning content

Used by over 300,000 students

Constant content updates development and improvements over 18 years

Designed to help students improve ACT and SAT scores

**Does it well:** 4–12-point average ACT Improvement (Manti HS)

**99<sup>th</sup> Percentile:** Cohorts routinely score in the 99<sup>th</sup>+ percentile for improvement

**Goal:** 20+ hours in-program

Each student has their own license and login and proceeds at own pace

Diagnostic creates custom study plan

# Piggy-back Implementation

3 levels of program implementation inside your class (Non-ACT/SAT teachers)

1. **Basic:** Access for you and students
2. **Motivation:** give credit/grade for time in program.
  - a. **Motivation<sup>+</sup>:** allow time in class to work on program
    - i. **Individual Attention:** Answer individual questions
    - ii. **Innings Chewer:** Perfect fall back for substitute teachers or shortened classes or anytime.
3. **Integrate:** learn to use the in-program analytics to see class struggles
  - a. Answer class-wide questions
4. **Actual ACT/SAT teachers:** set up training

**Questions:** contact your super Admin or use the bug report or teacher chat

**Training:** [www.eKnowledge.com/schools](http://www.eKnowledge.com/schools) click "demo"
